Welcome to the Early Learning Outcomes Framework (ELOF) Implementation Toolkit

This toolkit helps your program review and enhance program and teaching practices to promote children’s outcomes described in the ELOF. It includes four implementation guides:

- Using the ELOF to Establish School Readiness Goals
- Using the ELOF to Inform Curriculum Planning and Implementation
- Using the ELOF to Inform Assessment
- Using the ELOF to Inform Professional Development

This Introduction to the ELOF Implementation Toolkit provides an overview of the implementation guides. It offers information and activities to help your program learn about the ELOF.

Overview of the ELOF Implementation Toolkit

What Is the Purpose of the ELOF Implementation Toolkit?
The Head Start Program Performance Standards (HSPPS) require your program to implement program and teaching practices that are aligned with the ELOF. This toolkit walks your program through the process of aligning these practices with the ELOF. It also helps you strengthen practices to promote children’s development in all ELOF domains. After completing the toolkit, your program will be able to plan and implement program and teaching practices that support children’s outcomes described in the ELOF.

Making Connections to the HSPPS
The HSPPS require your program to use the ELOF to inform program and teaching practices. Specifically, the HSPPS require that:

- School readiness goals are aligned with the ELOF §1302.102(a)(3)
- Curricula are aligned with the ELOF §1302.32(a)(1)(ii) and §1302.35(d)(1)(ii)
- Assessment evaluates the child’s developmental level and progress in outcomes aligned to goals described in the ELOF §1302.33(b)(1)
- Professional development is focused on knowledge of the content in the ELOF §1302.92(b)(5)
- Teaching practices focus on promoting growth in the developmental progressions described in the ELOF §1302.31(b)(1)(ii)

How Is This Introduction to the ELOF Implementation Toolkit Organized?
This Introduction to the ELOF Implementation Toolkit provides your program with the information you need before working through the implementation guides. It includes:

- An overview of the implementation guides
- A description of the reflective approach used in the implementation guides
- Information and activities to help programs learn about the ELOF

All of this information is described in the body of the document. All handouts and supporting resources are located in the Appendices at the end of the document.

What Does Alignment Mean?
Alignment means identifying the elements that correspond between two things. In the implementation guides, it refers to identifying the relationship between program and teaching practices with the ELOF.

Who Is the Audience for the ELOF Implementation Toolkit?
Education managers can use the toolkit with an implementation team made up of program leaders and staff. The team might include directors, teachers, family child care providers, home visitors, disabilities coordinators, family services staff, and any others who work with children and families.
Introducing the Implementation Guides

The implementation guides help your program use the ELOF to plan and implement program and teaching practices that support positive outcomes for all children ages birth to 5, including children who are dual language learners (DLLs) and children with disabilities. The implementation guides can be used by all program options, including center-based, family child care, and home-based programs. Read the summaries below to learn more about each guide.

**Using the ELOF to Establish School Readiness Goals**
This guide helps your program update school readiness goals to align with the ELOF. It also helps your program identify child assessment data to measure progress.

**Using the ELOF to Inform Curriculum Planning and Implementation**
This guide helps your program align your curriculum and teaching practices with the ELOF.

**Using the ELOF to Inform Assessment**
This guide supports your program in reviewing how well an assessment instrument assesses children’s skills, behaviors, and knowledge in the ELOF domains.

**Using the ELOF to Inform Professional Development**
This guide provides tools for your program to plan professional development that enables staff to support children’s development and learning in the ELOF domains.

**Using the Implementation Guides in Home-Based Programs**
All program options must use the ELOF to inform program and teaching practices, including center-based, family child care, and home-based programs. The implementation guides focus on strengthening program and teaching practices to support children’s development and learning described in the ELOF.

What does this mean for home visitors?

Home visitors help strengthen the family-child relationship. They also support families in providing learning experiences, engaging in responsive interactions, and using the home as the learning environment. Education managers and home-based supervisors can use the implementation guides when working with home visitors, keeping in mind their role in supporting families to provide learning opportunities that facilitate children’s development and learning as described in the ELOF.
A Reflective Approach for Implementation

From implementation science, we know that implementation is a process that takes time. Effective implementation requires a team approach and different types of program supports (e.g., training, access to materials).

Building from implementation science, the guides provide a step-by-step process and tools to help align program and teaching practices with the ELOF. The guides are organized around the following 3-step process:

**Step 1 ASSESS**: The implementation process begins with gathering information and assessing needs.

**Step 2 PLAN**: Based on this needs assessment, plans and preparations can be put in place.

**Step 3 ACT**: Finally, program leaders and staff can implement enhanced program and teaching practices based on the data collected and established plans.

Reflection is built into each one of these steps.

**Roadmap: The Assess-Plan-Act Process**

**Step 1 Assess**
- **Assess**: Review how specific program and teaching practices align with the ELOF. Identify areas of strength and need.

**In this step you will:**
- Review
- Collect information
- Align
- Reflect

**Step 2 Plan**
- **Plan**: Make a plan to strengthen program and teaching practices to better align with the ELOF.

**In this step you will:**
- Analyze
- Brainstorm
- Develop action plans
- Provide supports

**Step 3 Act**
- **Act**: Put the plan into action. Reflect on progress. Identify next steps.

**In this step you will:**
- Implement
- Observe
- Reflect
- Adjust
Making Connections to the Four Data Activities

The Assess-Plan-Act approach may remind you of the Four Data Activities (Prepare, Collect, Analyze & Aggregate, Share & Use; [http://eclkc.ohs.acf.hhs.gov/hslc/tta-system/operations/learning/docs/The-Four-Data-Activities.pdf](http://eclkc.ohs.acf.hhs.gov/hslc/tta-system/operations/learning/docs/The-Four-Data-Activities.pdf)). Both provide your program with a process and tools to gather information and use data to guide planning and implementation of program practices.

Learning about the ELOF

Before aligning program and teaching practices with the ELOF, your program needs to understand the ELOF ([https://eclkc.ohs.acf.hhs.gov/hslc/hs/sr/approach/pdf/ohs-framework.pdf](https://eclkc.ohs.acf.hhs.gov/hslc/hs/sr/approach/pdf/ohs-framework.pdf)). The rest of this Introduction to the ELOF Implementation Toolkit provides information and activities to learn more about the ELOF.

What Is the ELOF?

The ELOF:

- Reflects research on what young children should know and be able to do in the following domains:
  - Approaches to Learning
  - Social and Emotional Development
  - Language and Literacy
  - Cognition
  - Perceptual, Motor, and Physical Development

- Applies to all Head Start program settings serving children ages birth to 5, including center-based, family child care, and home-based programs

- Applies to all children, including children who are DLLs as well as children with disabilities

- Provides rich descriptions of children’s developmental progressions, which can help program staff implement intentional teaching practices to support children at various ages

- Informs many aspects of program practices, such as:
  - Establishing school readiness goals
  - Selecting and implementing a curriculum
  - Selecting assessment instruments
  - Planning professional development

To learn more about the ELOF, please review the resources in Appendix A.
Activities to Learn about the ELOF

The following activities can deepen your program’s understanding of the ELOF. In the activities, you will learn more about the organization of the ELOF, the ELOF domains and sub-domains, and how to use the ELOF to inform program and teaching practices. The activities can be done with staff during a meeting or a professional development workshop. The handouts for all activities can be found in the Appendices.

**Activity 1: Exploring a Domain**

This activity invites participants to dive into one ELOF domain and learn about its sub-domains and goals. In small groups, participants create a representation of the domain to help them understand the structure of the ELOF.

**Objectives:**
- To understand the organization of the ELOF
- To learn in-depth about one domain

**APPROACHES TO LEARNING**

<table>
<thead>
<tr>
<th>SOCIAL AND EMOTIONAL DEVELOPMENT</th>
<th>LANGUAGE AND LITERACY</th>
<th>COGNITION</th>
<th>PERCEPTUAL, MOTOR, AND PHYSICAL DEVELOPMENT</th>
</tr>
</thead>
</table>

**Prepare**
Before you begin, gather the following materials:
- The ELOF
- Pens and markers
- Paper

**Select**
Select one ELOF domain to explore.

**Explore**
With the large group, use the following questions to guide your exploration.
1. What are the sub-domains for this domain for both infant/toddler and preschool?
2. Are the sub-domains for infant/toddler and preschool the same or different? How?
3. What are the goals within each sub-domain for both infant/toddler and preschool?
4. How are the goals for infants and toddlers related to the goals for preschoolers?

**Create**
In small groups, collaborate to create a visual representation of the infant/toddler and preschool ELOF elements. Include the following:
- Selected domain
- Sub-domains
- Developmental progressions
- Goals
- Indicators

**Share**
Share your ideas with the large group.
**Activity 2: Exploring the Birth-to-Five Continuum**

This activity encourages participants to explore the birth-to-5 continuum of learning. Participants also reflect on how the birth-to-5 continuum informs their work.

**Objectives:**
- To understand the continuum of learning for infants, toddlers, and preschoolers
- To foster a deeper understanding of the timing and sequence of child development and learning from birth to 5 for specific ELOF goals

</table>
Activity 3: Identifying Skills, Behaviors, and Concepts in the ELOF Domains

This activity allows participants to use the ELOF to identify examples of children demonstrating ELOF skills, behaviors, and concepts. Participants also brainstorm teaching practices to support children’s development in these sub-domains.

Objectives:

- To use the ELOF to inform observations of children’s development and learning
- To use the ELOF to inform teaching practices to support children’s development and learning

Prepare

Before you begin, gather the following materials:

- The ELOF
- Sample photographs (see Appendix D for a toddler example or Appendix E for a preschooler example)
- Anecdotal notes (if doing modified version of activity)

Observe

Observe the children in the sample photographs.*

*You can do a modified version of this activity using photographs, videos, or anecdotal notes from your early learning setting. You can also create a vignette.

Identify

Identify which ELOF domains you see in action in these photographs and anecdotes.

Reflect

Reflect on the following questions:

1. What are some examples of children’s skills, behaviors, and knowledge from the ELOF sub-domains that you see in these sample photographs?
2. How might the staff in this learning setting intentionally support children’s skills, behaviors, and knowledge in these ELOF sub-domains?

Share

Share your ideas with the large group.
**Activity 4: Supporting Child Development in the ELOF Domains**

This activity helps participants learn about an ELOF sub-domain and identify teaching practices that would support children’s development and learning in that sub-domain.

**Objectives:**

- To learn about existing resources that offer strategies to support children’s development as described in the ELOF
- To use the ELOF to inform intentional teaching practices

<table>
<thead>
<tr>
<th>APPROACHES TO LEARNING</th>
<th>SOCIAL AND EMOTIONAL DEVELOPMENT</th>
<th>LANGUAGE AND LITERACY</th>
<th>COGNITION</th>
<th>PERCEPTUAL, MOTOR, AND PHYSICAL DEVELOPMENT</th>
</tr>
</thead>
</table>

**Prepare**

Before you begin, print out the resources from your selected ELOF domain from the document, “Selected Existing Resources to Support Implementation of the Head Start Early Learning Outcomes Framework (ELOF)” (see Appendix F).

**Select**

Select one ELOF domain to explore during this activity. Form small groups with others who work with the same age group.

Each group should select a sub-domain of the ELOF domain. Read through the goals, developmental progressions, and indicators.

**Explore**

Explore the relevant resources for your age group from the document in Appendix F.

**Discuss**

Discuss how you can use the strategies in the resources to support children’s development described in the ELOF sub-domain.

**Share**

Share your ideas with the large group.

**Practice**

Identify a specific teaching practice from this discussion to try out in your learning setting over the next week.

---

This document was developed with funds from Grant #90HC0012-01-00 for the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Head Start and Office of Child Care, by the National Center on Early Childhood Development, Teaching, and Learning. Use this webinar to learn how the ELOF supports the implementation of curriculum, learning experiences, and assessment. This webinar offers examples of children’s development described in the ELOF and strategies to support their development.
## Appendix B: ELOF: Language and Literacy Birth-to-Five Continuum

### Central Domain: Language and Literacy

**INFANT/TODDLER**

- **Domain: Language and Communication**
  - **Sub-Domains:**
    - Attending and Understanding
    - Communicating and Speaking
    - Vocabulary
    - Emergent Literacy

**PRESCHOOL**

- **Domain: Language and Communication**
  - **Sub-Domains:**
    - Attending and Understanding
    - Communicating and Speaking
    - Vocabulary
  - **Domain: Literacy**
    - **Sub-Domains:**
      - Phonological Awareness
      - Print and Alphabet Knowledge
      - Comprehension and Text Structure
      - Writing

### Sub-Domain: Communicating and Speaking

**INFANT/TODDLER**

- **Goals:**
  - IT-LC 3. Child communicates needs and wants non-verbally and by using language.
  - IT-LC 4. Child uses non-verbal communication and language to engage others in interaction.
  - IT-LC 5. Child uses increasingly complex language in conversation with others.
  - IT-LC 6. Child initiates non-verbal communication and language to learn and gain information.

**PRESCHOOL**

- **Goals:**
  - P-LC 3. Child varies the amount of information provided to meet the demands of the situation.
  - P-LC 4. Child understands, follows, and uses appropriate social and conversational rules.
  - P-LC 5. Child expresses self in increasingly long, detailed, and sophisticated ways.

### Developmental Progression: Expressive Language

#### Goal: IT-LC 5. Child uses increasingly complex language in conversation with others.

- **Birth to 9 Months**
  - Explores sounds common in many languages, such as “ma-ma” or “ba-ba.”

- **8 to 18 Months**
  - Initiates and participates in conversations by babbling and using gestures, such as showing or giving, or by using words or signs. Communicates mainly about objects, actions, and events happening in the here and now.

- **16 to 36 Months**
  - Participates in conversations with others using spoken or sign language that includes simple sentences, questions, and responses. Sometimes describes experiences that have happened in the past or are about to happen. Children who are DLLs develop the ability to participate in conversations with increasing complexity in each of their languages.

- **36 to 48 Months**
  - Communicates clearly enough to be understood by familiar adults, but may make some pronunciation and grammatical errors. Typically uses 3-5 word phrases/sentences when communicating. With some prompting, can offer multiple (2-3) pieces of information on a single topic.

- **48 to 60 Months**
  - Communicates clearly enough to be understood by familiar and unfamiliar adults, but may make some pronunciation errors and some isolated grammatical errors. Uses longer sentences, as well as sentences that are slightly more complex, such as, “I need a pencil because this one broke.” Can offer multiple pieces of information on a topic with increasing independence and answer simple questions.

Rafael points to his sand structure and says, “Es mi casa.” His teacher asks who lives in his house. Miguel observes and listens.

Sofia exclaims, “It’s falling!” as her teacher pours sand from her hand, while Andrea scoops sand nearby.

Mariana, Rafael, and Hayley scoop sand in their shovels and pour it into their pails.

Daniel explores the texture of the sand with his hand, while Mateo pats the sand with his shovel.
Appendix E: Playing Restaurant in Preschool

The children in Teacher Mei and Teacher Ju’s Head Start classroom have transformed their dramatic play area into a restaurant.

José and Isabella pretend to be mama and papa eating pizza at a restaurant on their way home from work.

Cheng pretends to be a waiter. He counts the cups as he pours tea for his customers in the restaurant. When he gives them the tea, he tells them, “Be careful. It’s very hot.”

Desiree, the chef, comes out of the kitchen to offer Lorenita, the customer, her choice of cookies. Desiree excitedly shares that she has baked “star cookies” today. Lorenita chooses the star cookie on the red plate.
This document provides a list of resources from Head Start’s Early Childhood Learning and Knowledge Center (ECLKC) to promote high quality teaching and learning in each of the five essential domains of the ELOF. Adults who work with children, including teachers, child care providers, and home visitors, can use these resources to increase their understanding of each of the ELOF domains. Support staff, such as program administrators, managers, coordinators, coaches, and trainers, can use these resources to build the teaching practices of educators in their programs or trainings. A description of each resource includes links to the original sources and references to related sub-domains of the ELOF.

*APPENDIX: IMPLEMENTATION GUIDE*

**INTRODUCTION TO THE ELOF IMPLEMENTATION TOOLKIT**

Appendix F (cont’d)
## Existing Resources

### Early Essentials

*Webisode #9: Language Development*

Early language development provides the foundation for relationship building, communication, and learning about the world. How can teachers/providers/home visitors promote language development during daily interactions? This video provides tips and strategies to support and expand young children's language development.

[http://1.usa.gov/1ORSkZt](http://1.usa.gov/1ORSkZt)

### News You Can Use

*Foundations of School Readiness: Language and Literacy*

How does language development relate to school readiness for infants and toddlers? How can teachers/providers/home visitors support home language development? This document explores the elements of language development in the youngest learners and how to support them.

[http://1.usa.gov/1YWLjLD](http://1.usa.gov/1YWLjLD)

### Planned Language Approach: Tip Sheet

*Language Modeling with Dual Language Learning Infants*  
*Language Modeling with Dual Language Learning Toddlers*

How can teachers/providers/home visitors support language development for dual language learners (DLLs)? What if a teacher/provider does not speak the child’s home language? These tip sheets explore strategies to support dual language learning with infants and toddlers.

[http://1.usa.gov/1NMmyfQT](http://1.usa.gov/1NMmyfQT)  
[http://1.usa.gov/1IEWUee](http://1.usa.gov/1IEWUee)

## ELOF Sub-Domains

- Attending and Understanding
- Communicating and Speaking
- Vocabulary
- Emergent Literacy

## How Can I Use This Resource?

- **Adults working with children:** Watch the video and use *Quick Start Guide* to reflect on practices that promote early language development.
- **Support staff:** Introduce the companion video, *Early Essentials Webisode #9 Practice Moment: Language Development* ([http://1.usa.gov/1ZguJq7](http://1.usa.gov/1ZguJq7)), at a staff meeting. Use the Practice Moment's *Quick Start Guide* to discuss particular scenarios with staff and reflect on strategies for language development.

- **Adults working with children:** Read through the early language and literacy strategies and use them to strengthen children's early language skills.
- **Support staff:** Share this *News You Can Use* at a staff meeting or training. Use the *Think/Reflect/Discuss* questions to deepen staff’s engagement with the topic.

- **Adults working with children:** Read through the tip sheets and use the strategies listed to support early language development.
- **Support staff:** Use the tip sheets to start a discussion with staff about why it is important to support home language(s) and how to implement some of the strategies.
