

Los Angeles County Office of Education

Head Start Home-Based Programs

- An educator will come to your home once a week and work with you and your child.
- Parents are their child's first teachers, and together we nurture and support your child's development at home.
- Plus, twice a month you can get together with other parents and young children to talk, play, and learn.

Home-based programs build thriving families and children who are healthy, safe, and ready to learn.

Now Enrolling Children Aged Birth to Four!
